## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 08/29/2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patent 6,504,148 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 1-27 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest a method of analyzing a substance, the method comprising ionizing the substance to form a stream of ions; subjecting the ion stream to a first mass analysis; introducing the precursor ions into a collision cell to promote fragmentation of the precursor ions; accelerating the selected primary fragment ions from the collision cell into a downstream mass analyzer; and analyzing the secondary fragment ions to generate a mass spectrum as presented in claims 1, 8, and 15. Claims 2-7, 9-14, and 16-27 are allowable because of their dependencies upon claims 1, 8, or 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
